

How to connect to RV Wi-Fi+ Media Using VLC

This guide is to help you watch your stored images and movies from your USB or portable hard drive and share amongst your digital devices.

You've got your RV Wi-Fi+ set up and installed and you are using RV Wi-Fi+ to connect to the internet. You want to watch something that you have stored on your portable harddrive or USB - now what?

Easy! Go to the app store on your device and search for 'VLC'. The icon looks like this  VLC is a free multimedia player that plays most multimedia files.

It's Simple, fast and powerful.

Once installed on your device, follow these simple steps to access your stored files.

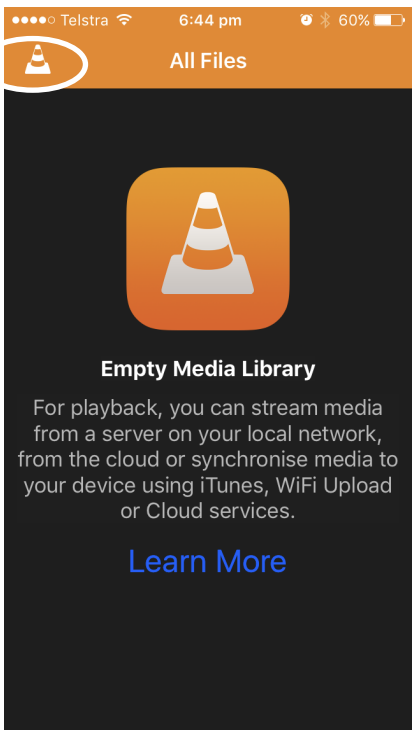

1. Connect to RV Wi-Fi (if you aren't already)

- Go to settings, Wi-Fi and click on RV WIFI1234 (yours will show a different series of numbers - each unit is unique).
- Wait for the tick to appear next to RV WIFI1234 - as shown in the user guide.
- Go back to your home page and then scroll your pages until you find the VLC icon

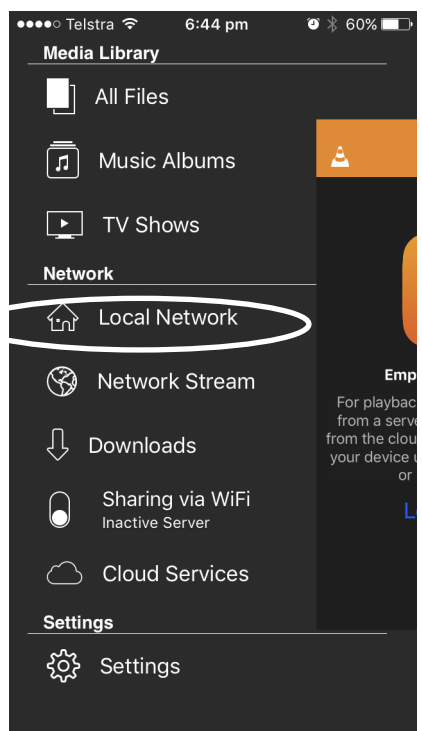

2. Open VLC

 Click on the icon, you should see the first page that is headed 'All Files'

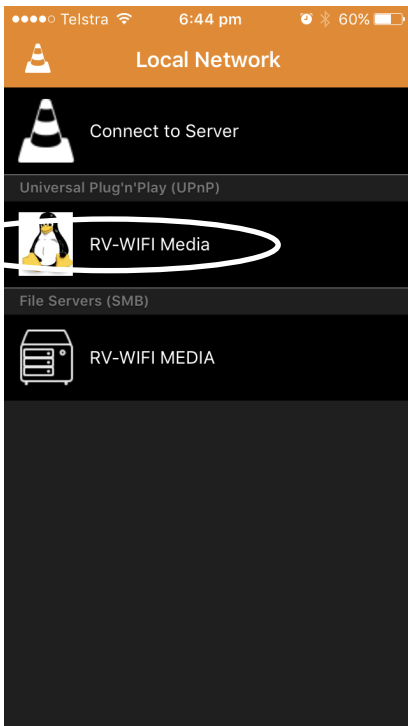

3. 'All Files'

4. Click on the VCL icon in the top left corner. Click on the Local Network Icon

5. Wait for the 'Penguin' image to appear. Select/Click on it .

6. Choose from your files!
